

ICHS2013 International Conference on Hydrogen Safety

September 9-11, 2013 - Brussels - Belgium

Organized by:

ICHS 2013 CONFERENCE - SCOPE

The 5th International Conference on Hydrogen Safety (ICHS 2013) will be held in Brussels, Belgium on September 9-11, 2013 under the auspices of the International Association for Hydrogen Safety (IA-HySafe). The conference will be hosted by Joint Research Centre Institute for Energy and Transport of the European Commission and will improve public awareness and trust in hydrogen technologies by communicating a better understanding of both the hazards and risks associated with hydrogen and their management. The first four conferences in 2005, 2007, 2009 and 2011 succeeded in attracting most relevant experts from all over the world (each time about 200 participants) and in providing an open platform for presenting and discussing new results - with a scope from basic research to applied development and standardization and regulatory support - always addressing the hydrogen safety issue. As we the commercialization phase of hydrogen fuel cell vehicles in 2015, ICHS 2013 will focus on progress in safety of hydrogen technologies and infrastructure and enabling the transition to zero carbon energy. Therefore, this conference seeks papers ranging from Regulations Codes and Standards, Safety in H2 infrastructure, Safety solutions and implementation of H2 technologies, Hydrogen and hydrogen blends behavior, Physical effects, consequence analysis, Incidents, accidents and near misses, Hydrogen effects on materials and components, Safety of energy storage, Risk management to Fuel cells related safety issues. All contributions to ICHS 2013 will be evaluated exclusively in the light of their scientific content and relevance to hydrogen safety.

ICHS 2013 CONFERENCE - STRUCTURE

ICHS 2013 will include thematic plenary sessions, topical lectures, and parallel oral and poster sessions of contributed papers. The conference seeks to strengthen the near term introduction of hydrogen technologies in the market place.

With the endorsement of:

ANNOUNCING SPONSORSHIP AND SUPPORT OPPORTUNITIES

A - GOLD: € 15,000 - Includes:

- A stand within the designated ICHS2013 exhibit area.
- Special privilege for your company's advertisement (i.e. oral presentation).
- Your company's brochure included in all campaign material and in the conference bags to be given out at the conference, along with the logo of your company on our web page, final program, and proceedings given out at the conference.
- 10 participants for full fare registration.

B - SILVER: € 7,500 - Includes:

- A stand within the designated ICHS2013 exhibit area.
- The logo of your company on our web page, final program, and proceedings given out at the conference.
- 5 participants for full fare registration.

C - BRONZE: € 4,000 - Includes:

- A stand within the designated ICHS2013 exhibit area.
- The logo of your company on our web page, final program, and proceedings given out at the conference.
- 2 participants for full fare registration.

D - SPECIAL SUPPORT

- Besides the formal slots for sponsorship the organizers welcome any support regarding the infrastructural arrangements. Financing or co-financing the gala dinner, lunches or the coffee breaks are possible alternatives. Such a support will give visibility to your company's commitment to support this unique event. As for the other sponsorship models the logo of your company will be added to our web page, final program, and proceedings given out at the conference.

For negotiating the details please get in contact with our sponsor contacts.
